- 12/2019 - Barrie, ON **Mobile Application Development (Dean's List)** - Georgian College
- 07/2016 - Punjab, India **Bachelor of Technology** in Computer Science & Engineering (B-tech) - Punjabi University

Projects

Medical Web Application (capstone project)

- A desktop app that can be used by caregivers to give patient-centric care. The idea is given by a medical start-up. It was a part of my course in college as Major Project. Also handled the project as a **Team Lead** with responsibilities of timely communication with clients and arrange quick and urgent meetings whenever the client needed.
- Implemented server-side functionality with Node.js and Express.js for user authentication.

Skills: Visual Studio Code, Python (Django), GitHub, HTML, Bootstrap, MongoDB, API calls, Postman

Car Renting App (capstone project)

- This was a mobile application to rent and buy cars online. Users can sign up and use all the features available. Renters can look up cars based on the distance which uses Google Maps and can contact owners for renting.
- Worked closely with the design team to translate wireframes and mockups into functional web pages.

Skills: XCode, Swift, Firebase, GitHub, Google API, REST API, AdobeXd.

Additional Information

- Strong problem-solving and analytical skills with an ability to learn quickly and adapt to new technologies.
- Excellent communication and interpersonal skills, able to work effectively in a team-oriented environment.
- A passion for staying up-to-date with the latest trends in web development and continuous learning.
